

Need a Working Cat for your Shop or Barn?

We have kitties looking for a new home and a job. Our working cats are semi-feral to under socialized and prefer to live outside.

What We Do:

Provide fully vetted, healthy working cats who are:

- > Spayed and neutered
- > Fvcrp and rabies vaccines
- > Dewormed
- > Fiv / Felv tested

What you do to settle them in to their new life:

1. A secure building, room or large cage for their 1-month rehoming period. Every nook and cranny must be filled so they can't escape.
2. Fresh food and water for the rest of their lives in their new home. They are better mousers if this is provided.
3. An area out of the elements where they can safely sleep and stay warm. Lots of hiding places are a bonus!

Fill out our Barn Cat application/contract at NoCoKitties.org or call (970) 670-0554 for more information.
